## BALL GAME PROVES EXHIBITION CONTEST

MANNINGTON, June 28.—The Boys' Club took a scalp from the Mannington Athletic Club last evening in seven innings of a score of 10 to 9. It was an exhibition game.

There was wrangling of a sort all through the game, and ill temper made the situation interesting if not pleasant. The principal objections from each side were the umpire's decisions on base-running, strike-outs and foul balls.

The game was loose and featured by errors, wild pitches, and wilds. The Boys' Club got eight runs in the six innings they played, and the Athletics secured nine in seven innings.

The bad playing on both teams was caused mainly by the changes made in the line-up. Scarcely any of the men were in their regular positions, and the consequence was bad ball.

The next game scheduled by the Athletic Club is for Sunday, when they will play the Fairmont. Manager R. M. Johnson is anxious to win all the possible possible in this game so the Athletic Club's streak may be broken.

## BIG GAME SUNDAY

MANNINGTON, June 28.—Manager Port Knight of the Idamay baseball team has scheduled a game with the Star City nine for next Sunday at Blackshere Park. Knight's team has been going strong of late weeks, and with the pitchers showing up well there seems no doubt among fans that the Idamay team are a winning bunch.

However, the Star City boys have won from some of the strongest teams in the county, and their teamwork will make them hard to defeat. The contest on Sunday therefore promises to be a very interesting one.

## Pithy Paragraphs From Mannington

The baseball game at Hough Park last night was foul for seven innings.

The umpire called it right.

Buffalo Creek needs just a little of what Pyles Fork got.

Perhaps a nice big flood would help some.

Deacon Slapapple says there was plenty of moonshine last night during the rain—if you knew where to look for it.

The makers bring it in before it gets cold.

The city jail was given a thorough cleaning yesterday. Well, it needed something of the sort after the last few days.

What's the idea? Is Jolliffe trying to run opposition to the Moose?

Will this be a dance on the Fourth, or just an ordinary wiener roast?

Deacon Slapapple says he never heard of a Victrola at a wiener roast before.

But then, this is an age of new ideas and—

Somebody call a chaperone.

## DECISION WILL BE GIVEN ON AUGUST 7

CHARLES TOWN, June 28.—(By The Associated Press.)—Judge J. M. Woods announced in Circuit Court here today that he would give his decision on August 7 on the motion of the Rev. J. E. Wilburn of Blair for a new trial. Wilburn was convicted of second degree murder in connection with the killing of Deputy Sheriff John Gore of Logan County during the march of miners last summer.

Arguing for a new trial, the defense presented an affidavit, signed by J. F. Mason and S. E. Grubb, and charged that J. B. Kemp, one of the jurors in the case, said before the trial began that "the miners would not get their dues until every one of them was hanged."

The state entered an affidavit signed by Kemp in which he declared he made no such remarks. The defense attacked certain evidence offered by the state during the trial, contending it should not have been admitted.

State attorneys said they would notify the defense in ten days which of the remaining cases growing out of the march will be called for trial in August when court convenes. It was indicated that the case of John Wilburn would be tried. Wilburn is charged with the killing of Deputy Sheriff John Gore.

## PECULIAR CONDITION SHOWN IN REPORT

MANNINGTON, June 28.—Commissioner of Water A. B. Baumann received a report on the condition of the city water supply last evening, and the test claims the water in the flow tank, situated near the wells, is bad. The report further states that the water in the stock tanks on top of the hill and water from a spigot in town is suspicious. Considering the dirty condition of the water lines, Mr. Baumann is unable to account for the fact that the water is purer after having traversed the city mains than it is in the flow tank just after coming from the wells.

He announced this morning that it is his intention to have further tests made by other chemists in order to determine the exact condition of the water supply.

## STOCKS SLUGGISH BUT RALLY LATER

Mexican Petroleum Continues to Be Outstanding Issue in Stock Sales.

NEW YORK, June 28.—Dullness was the chief feature of today's narrow and uncertain stock market sales approximated 600,000 shares the smallest total for a full session in many weeks.

The market strengthened during the first hour on renewed buyings of oils. Mexican Petroleum rose 4 points, the Pan-American issues became firmer and gains of 1 to almost 2 points were made by General Asphalt, Standard Oil of California, Cosden and several other domestic oils. On the posting of an opening rate of 5 per cent more, the list again became irregular. Mexican Petroleum fell back 5 points and specialties, notably American Car, Utah, American Smelting, Sears-Roebuck and Coca Cola forfeited 1 to 2 points. Another rally set in before noon, but weakness in shares, especially rails were sluggish.

Mexican Petroleum wavered half way between the high and low of the day in the final hour. General Asphalt, United Fruit and several of the rails were firm but profit-taking caused moderate set backs elsewhere. The closing was strong.
